RF: Letter of recommendation in reference to **Mr.Mustefa Sadedin Mahamednur**
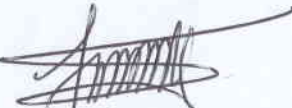

Dear sir/madam,

It gives me a great pleasure to write this recommendation in favor of **MR.MUSTEFA** to express his sincere interest in the network infrastructure and ICT.

In his role, he was responsible for IT support for ERP system implementation, network implementation, system integration with PEDS software, software and hardware computer maintenance and security control. His experience is an excellent fit for the list of requirements in job:

- Familiarity and experience with network firewall, router, switches LAN/ WAN/MAN network device technologies and concepts.
- Familiar with Cisco network equipment in the implementation.
- Installing, repairing and maintaining workstations, network printer and related equipment including peripheral devices and cabling according to standard.
- Working with ICT team to train users on the correct use of IT resource and respecting IT security rules.
- Technical support provided to the procurement in defining specifications for ICT related equipment and services and participates in procurement bid evaluations as a technical expert.
- Excellent communication skills and experience in building effective working relationships with internal customers from the business.

I am confident that he would be a big asset for your institution as an employee his higher experience. If you want more information about him do not hesitate to contact me at any time to my below mentioned mail ID.

Sincerely,

Mr.Atsebha Hagos Beyene

Subject: **Network and Infrastructure Engineer**

Dear sir/madam,

I am writing this letter to apply for the job that has been posted on Oscar Promotion this week on the position of Network and Infrastructure Engineer. I have BSc. In Electrical and Computer Engineering from University of Gondar (UoG).

I have a range of relevant skills and experience that fit the position you described, including:

- Oversee and troubleshoot IT-related issues.
- Work closely with the operational and networking teams for resolving the issues.
- Identify areas of improvement in the company's networking systems.
- Develop work reports for the review of the manager.
- Provide assistance to other departments in resolving major IT incidents.

Being a successful infrastructure Engineer, I have advanced knowledge of superior communication, and excellent problem-solving and analytical skills. I am profient in giving presentations, offering technical support, and project management that makes me an ideal significant value to the company's growth.

Thank you for considering my candidature. I am enclosing my resume to offer more knowledge about my coursework and professional history that are related to the particular role. I really appreciate you taking the time to review my application for the position of **Network and Infrastructure Engineering**.

Sincerely,

Mustefa sadedin

CCNA Exploration: Network Fundamentals

During the Cisco Networking Academy® course, administered by the undersigned instructor, the student was able to proficiently:

- Explain how communication works in data networks and the Internet

- Recognize the devices and services that are used to support communications across an Internetwork

- Explain the role of protocols in data networks

- Describe the importance of addressing and naming schemes at various layers of data networks

- Describe the protocols and services provided by the application layer in the OSI model and describe how this layer operates in sample networks

- Analyze the operations and features of the transport layer protocols and services

- Analyze the operations and features of the network layer protocols and services and explain the fundamental concepts of routing

- Design, calculate, and apply subnet masks

- Describe the operation of protocols at the OSI data link layer

- Explain the role of physical layer protocols and services

- Build a simple Ethernet network using routers and switches

- Use Cisco® CLI commands to perform basic router and switch configuration and verification
